RESOLUTION NUMBER 2024-01

A RESOLUTION OF THE CHARLOTTE COUNTY-PUNTA GORDA METROPOLITAN PLANNING ORGANIZATION (MPO) APPROVING THE UNIFIED PLANNING WORK PROGRAM (UPWP) AND CONSOLIDATED PLANNING GRANT (CPG) PROGRAM AND THE FLORIDA DEPARTMENT OF TRANSPORTATION METROPOLITAN PLANNING ORGANIZATION AGREEMENT FOR FISCAL YEAR 2024/2025 AND FISCAL YEAR 2025/2026

WHEREAS, the Unified Planning Work Program (UPWP) is the Charlotte County-Punta Gorda Metropolitan Planning Organization's biennial transportation planning work program and serves as the scope of work for the Florida Department of Transportation Metropolitan Planning Organization Agreement in compliance with 215.971 and 216.3475 Florida Statutes.

WHEREAS, the Federal Transit Administration ("FTA") 49 U.S.C. Section 5305(d) Metropolitan Planning Program funds and Federal Highway Administration (FHWA) Metropolitan Planning (PL) funds are the principal federal fund sources annually provided to MPOs to administer and manage metropolitan transportation planning activities; and

WHEREAS, the FTA Circular C 8100.1D and FHWA Order 4551.1 offer state departments of transportation, such as the Florida Department of Transportation (FDOT) the option to participate in the Consolidated Planning Grant ("CPG") program; and

WHEREAS, the CPG allows for FHWA PL and FTA 5305(d) funds to be combined into a single consolidated grant; and

WHEREAS, the FHWA has elected to participate in the CPG program, as the designated recipient of FTA 5305(d) and FHWA PL funds; and

WHEREAS, FDOT selects FHWA to serve as the CPG Administrator; and

WHEREAS, the MPOs are a stakeholder in the implementation of the CPG program in partnership with FDOT, FTA and FHWA.

Now, THEREFORE, BE IT RESOLVED by the Charlotte County-Punta Gorda Metropolitan Planning Organization (MPO) as follows:

1. The MPO Board hereby authorizes the MPO Chair and/or the MPO Director, or their designee, to execute amendments, supplemental agreements, administrative documents, contracts, UPWPs and other time sensitive agreements as needed in the future to meet mandatory deadlines.
2. The MPO Director is hereby authorized to make administrative modifications to adopted UPWPs by shifting funds among line-item tasks as needed providing that:

- a) The revision does not increase or decrease the total MPO budget in an adopted UPWP.
 - b) The revision does not change the scope of the work to be accomplished within any line item task.
 - c) The revision does not add or delete a line-item task in a UPWP.
 - d) All modifications are coordinated with the appropriate funding agencies.
3. Copies of the Final FY 2024/2025 and FY 2025/2026 UPWP, Metropolitan Planning Organization Agreement and this Resolution shall be forwarded to the Florida Department of Transportation and Federal Highway Administration (FHWA).

PASSED AND DULY ADOPTED this 20th day of May 2024.

Introduction

Definition of the MPO Unified Planning Work Program

This Unified Planning Work Program (UPWP) describes the transportation planning projects to be performed within the Charlotte County-Punta Gorda Metropolitan Planning Organization (MPO) study area.

This Work Program is consistent with all federal and state requirements. All product updates including the Transportation Improvement Program (TIP) and planning concepts and factors follow Federal and State guidelines. The MPO is complying with Title VI of the Civil Rights Act of 1964. Title VI specifically prohibits discrimination on the basis of race, color, national origin, age, disability, religion or sex. This applies in any and all applications of work by the MPO, including its administration, decision making and purchasing options.

The FY 2025– FY 2026 UPWP for the Charlotte County-Punta Gorda MPO is prepared in accordance with the Florida Department of Transportation (FDOT) *MPO Program Management Handbook*. The UPWP is approved by the MPO Board and the appropriate state and federal agencies. All tasks performed in this document are conducted in accordance with *Title 23 U.S.C.*, *Title 49 U.S.C.* and the *Federal Transit Act*.

Comprehensive Transportation Planning Activities

The MPO will be developing the 2050 Long Range Transportation Plan (LRTP) update as required by Federal and State Statute. The required adoption date will be on October 5, 2025. The MPO adopted its 2045 LRTP on October 5, 2020. The MPO will emphasize the requirements of current and future transportation legislative initiatives. The MPO will continually maintain and update the Transportation Improvement Program (TIP) to ensure all projects within the metropolitan area leveraged with federal, state and or local funding is reflected accurately for public transparency. The MPO has an adopted Public Participation Plan (PPP) which has been updated to include Limited English Proficiency (LEP) provisions, demographic data collection, and transit-related public participation requirements. The PPP will continue to be reviewed periodically for all necessary updates as required. In addition to all federal requirements, the MPO includes other relevant considerations pertinent to intermodal connectivity such as, land use planning, citizen input, Efficient Transportation Decision Making (ETDM), Intelligent Transportation Systems Planning (ITS) and all factors essential for efficient transit service within Charlotte County.

The highway projects that garnered public interest include improvements to the Burnt Store Road corridor. The unfinished portion of Burnt Store Road Phase at the county line is the last segment of the road improvements. Additionally, the Harbor View Road widening project is currently undergoing Design phase and scheduled to be complete in 2025. The Transportation Alternatives Program (TAP) has projects of significant interest that will progress improvements along the US 41 corridor in Charlotte County per FDOT design standards. These projects include implementation of multi-use sidewalks on both sides of the US 41 corridor. The multi-use trail on Taylor Road is funded for Design and once the project secures funding for Construction, it will greatly improve multi-modal connectivity in a traditionally underserved neighborhood. Lastly, the US 41 Corridor has recently undergone a visioning study by FDOT's District One Planning Studio. The visioning study ensures that future proposed improvements along the US 41 Corridor is in sync with the needs and desires of local stakeholders in Charlotte County. This strategic approach to collaborative planning for state roadways in District One, solidifies transportation planning partnerships and proactively identifies community concerns before project priorities enter the production pipeline.

The Interlocal Agreement with the Sarasota/Manatee MPO was rewritten and adopted at the January 22, 2018 Charlotte County-Punta Gorda & Sarasota/Manatee MPO Joint Regional Meeting. Other products finalized in previous years include a Joint Regional Roadway Network, a Joint Transportation Regional Incentive Program (TRIP) and Joint Regional Transportation Alternatives (RTAP) Project Priority Lists. Regional coordination for the Long-Range Transportation Plan (LRTP) is on-going during the LRTP Update phase of the plans and continues between Plan adoptions. A Joint Charlotte County- Punta Gorda and Sarasota/Manatee MPO Board Meeting is held annually.

A formal Interlocal Agreement with the Lee County MPO was adopted on December 13, 2013. The directors of these MPOs attend each other's TAC meetings, and a joint Charlotte County-Punta Gorda and Lee County MPO Board Meeting is held annually. Products finalized include Joint Transportation Regional Incentive Program (TRIP) Project Priority Lists.

The MPO participates in a quarterly FDOT/Charlotte County/City of Punta Gorda coordination meeting. These meetings provide the MPO additional insight, understanding, and concerns of federal, state and local planning agencies.

The MPO continues to coordinate with the Charlotte County Transit Division, the Transportation Disadvantaged Local Coordinating Board (LCB), Sarasota County Area Transit (SCAT) and Lee County's Lee-Tran to address the viability of additional transportation services in Charlotte County.

The Continuity of Operations Plan (COOP) is reviewed annually for improved effectiveness and situational and personnel changes, as required.

The planning activities of the Charlotte County-Punta Gorda MPO are consistent with Federal Planning Factors, the Florida Transportation Plan (FTP) and the Charlotte County and City of Punta Gorda Comprehensive Plans.

Statement of CPG Participation

“The FDOT and the Charlotte County-Punta Gorda MPO participate in the Consolidated Planning Grant (CPG). The CPG enables FDOT, in cooperation with the MPO, FHWA, and FTA, to annually consolidate Florida's FHWA PL and FTA 5305(d) metropolitan planning fund allocations into a single grant that is administered by the FHWA Florida Division. These funds are annually apportioned to FDOT as the direct recipient and allocated to the MPO by FDOT utilizing formulas approved by the MPO, FDOT, FHWA, and FTA in accordance with 23 CFR 420.109 and 49 U.S.C. Chapter 53. The FDOT is fulfilling the CPG's required 18.07% non-federal share (match) using Transportation Development Credits as permitted by 23 CFR 120(j) and FTA C 8100.1D.”

Soft Match Definition

Section 120 of Title 23, U.S.C., permits a State to use certain toll revenue expenditures as a credit toward the non-Federal matching share of all programs authorized by Title 23, (with the exception of Emergency Relief Programs) and for transit programs authorized by Chapter 53 of Title 49, U.S.C. This is in essence a "soft match" provision that allows the Federal share to be increased up to 100% to the extent credits are available. The “soft match” amount being utilized to match the FHWA PL funding in the UPWP is **18.07%** of FHWA program funds.

Local Planning Priorities

The needs and level of planning of the Charlotte County-Punta Gorda MPO area are reflected in this UPWP. The objectives of this UPWP are to address the planning priorities of the Charlotte County-Punta Gorda MPO area as follows:

- Provide socio-economic, educational, and technical input for the planning and development of the MPO area's transportation network
- Continue to facilitate educational opportunities for the MPO Board and its advisory committees to enhance and reinforce their understanding of transportation planning decision making and the MPO process
- Utilize, evaluate, and where possible, improve public participation and input in the transportation planning proposals and goals on a local and regional scale
- Monitor the current Transit Development Plan (TDP) and continue to gather public input and area transit needs information for the development of TDP progress reports
- Participate in the development of the Florida Strategic Intermodal System (SIS) plan
- Revalidate the Interlocal Agreements with the Sarasota/Manatee MPO and the Lee County MPO
- Develop and maintain a physical inventory of property obtained through federal funding, its maintenance and a final disposal procedure that meets FDOT and Federal Highway Administration (FHWA) regulations
- Adopt and update as required the 2050 LRTP ensuring regional coordination with neighboring MPOs
- Maintain and update the annual Transportation Improvement Program (TIP) seeking creative, supportable project priorities that meet community needs
- Continue to work towards receiving enhanced TRIP and regional project funding for the MPO

Air Quality Planning Activities

In the 2050 LRTP Update, the MPO will adopt policies to protect existing air quality. Projected emissions are included in traffic model evaluation reports. These projections are used by the MPO and by local governments to help make road network and land use decisions. The MPO monitors all related air quality information collected in assessing transportation impacts on overall Air Quality.

Transit Planning

Transit planning tasks are performed with funds under Titles 23 and 49, U.S.C. through the activities in Task 8: Transit and Transportation Disadvantaged Planning, as well as possible activity under a Task 8 General Planning Consultant line. The Charlotte County Transit Division's significant role in providing transportation to Charlotte County residents continues to grow and evolve to meet demand at peak times with a paratransit-only system. The long-term efforts to clarify future spending for paratransit will continue. As evidenced in the Charlotte County Transit Development Plan (TDP), *Charlotte Rides*, transit planning remains at the forefront of the MPO's efforts to expand citizens' mobility options both within the urbanized area of the County and across County lines. Development of a new TDP is currently underway in 2024. The MPO works continually and cooperatively with the staff of the Charlotte County Transit Division, the Members of the Charlotte County Transportation Disadvantaged Local Coordinating Board (LCB) and representatives of adjoining County transit systems and MPOs to address current and emerging transit issues.

Public Participation including Title VI and Title VIII

The MPO's first Public Participation Plan (PPP) was adopted in 1994, while the most recent updated PPP was adopted by the MPO Board on December 15, 2022. It is consistent with Florida State Rule 14-73.001 and includes the demographic data on the MPO's.

MPO staff continues to revise the informational brochure detailing the history, purpose and mission of the MPO. The brochure encourages public involvement and meeting participation. Meeting agenda packets for the MPO Board and its Committee meetings are displayed in local government offices, all County library branches and other accessible locations for review by the public. Additionally, the MPO developed a citizens' transportation planning award in August 2009 named for a long-serving LCB and CAC member. The Peggy Walters Citizens Mobility Award was established to recognize achievement by an individual or group who through their efforts and accomplishments has made significant and noteworthy contributions to transportation planning in the area.

The MPO website is updated regularly to include current MPO, LCB and Advisory Committee meeting agendas. The website also provides direction to all MPO planning documents. The website includes a text box under the "Contact Us" tab to aid citizens visiting the MPO site to easily comment on MPO plans and documents. The website also provides information and links to the local jurisdictions and other pertinent websites.

Consistent with Federal requirements, in recent years the MPO has placed increased emphasis on public involvement. The MPO has ensured that Title VI policy is followed including outreach to the county's traditionally underserved population. The MPO's primary strategy for engaging all populations in transportation decision making is through membership on both the Citizens' Advisory Committee (CAC) and the Transportation Disadvantaged Local Coordinating Board (LCB). The MPO has also used specific studies and planning tools such as the Transit Development Plan (TDP), the Transportation Disadvantaged Service Plan (TDSP), and PD&E studies as a component of the public involvement process. Through the "Efficient Transportation Decision Making" (ETDM) process, the MPO incorporates public comments and ideas. For major plan updates such as the LRTP Update, public workshops are held to build overall transportation planning consensus culminating in project priority ranking.

Citizens are provided opportunities to comment on all content and aspects of this UPWP. The draft UPWP is distributed to all Charlotte County libraries and the *Sun Herald*. It is also an agenda item in MPO Board, TAC, and CAC meeting packets. Additionally, the draft UPWP is sent to federal, state and local government agencies to solicit their comments. The MPO adopts the final UPWP only after all comments have been addressed and, where appropriate, integrated into the Work Program.

The final adopted UPWP is available in hard copies at the MPO offices or can be requested electronically.

Organization & Management

The MPO Board Membership:

<u>Agency</u>	<u>Representative</u>
Charlotte County Government	Commissioner Christopher G. Constance, MD, Chairman Commissioner Joseph Tiseo, Vice Chair Commissioner Stephen R. Deutsch
City of Punta Gorda	Mayor Lynne Matthews
Charlotte County Airport Authority	Commissioner Thomas “T.J.” Thornberry
<u>Non-Voting Advisory Member</u>	
Florida Department of Transportation	District One Secretary L.K. Nandam

The Charlotte County-Punta Gorda MPO is the primary agency responsible for transportation planning in Charlotte County. The MPO Board consists of five voting members representing two local governments, the local airport authority, and one non-voting advisor from FDOT. The MPO is a legislative body with the power to develop and adopt plans, to manage priorities for the programming of improvements to the transportation system, and to program and administer federal and state planning grants.

The MPO Board appoints members to the Citizens’ Advisory Committee (CAC), composed of eleven voting citizen representatives of the general population of the community. They are chosen to provide a diverse cross section of the population, representing three geographical areas (West-County, Mid-County, and South-County). Two (2) At-Large members are also included in the membership. The Committee is governed by Bylaws and is responsible for providing the MPO and its staff with public participation in the transportation planning process.

The Bicycle Pedestrian Advisory Committee (BPAC) is appointed by the MPO Board and is composed of bicycle advocates from the South, Mid and West County geographical areas, bicycle shop owners, bicycle club members, and a Historical, Cultural and Environmental representative. This Committee provides recommendations on bicycle and pedestrian plans and projects.

The MPO Board’s Technical Advisory Committee (TAC) is composed of 13 voting members. They are technically qualified representatives of agencies responsible for maintaining, controlling, developing and improving the transportation system within the Charlotte County-Punta Gorda Urbanized Boundaries, including the City of North Port and a small portion of DeSoto County. A DeSoto County planner, a City of North Port planner and the Director of the Lee County MPO are also voting members of the TAC. Committee duties include coordination of transportation plans and programs arising from the review of all transportation technical studies and reports.

The MPO is the official planning agency to receive Transportation Disadvantaged (TD) trust funds for planning activities of the TD program in Charlotte County. The MPO staffs the Transportation Disadvantaged Local Coordinating Board (LCB), which is chaired by an elected official from the Charlotte County area.

The MPO Board directs the staff in managing MPO operations through a director. The staff coordinates all planning projects and activities and administers all tasks to assure proper fulfillment of State and Federal requirements. The staff works with the TAC and the CAC, as well as other committees or groups dealing with transportation issues; acts as the primary local liaison to FDOT, the FHWA, and the FTA, as well as other agencies; and works with the staffs of local agencies and neighboring jurisdictions on transportation projects. The MPO has a total of six staff positions: a director, principal planner, three planners (one job share position partially filled and one full time) and an administrative services coordinator.

MPO Agreements

The MPO has several agreements with other public agencies to promote a Comprehensive, Continuing and Cooperative (3-C) planning process:

Agreements	Agency	Date

Operational Procedures and Bylaws

The MPO is an independent, separate legal entity authorized pursuant to Florida Law. The MPO operates under a duly adopted set of bylaws. In addition to MPO Staff, support service staff of Charlotte County Government provide administrative, legal, financial, purchasing, and personnel support.

The Charlotte County-Punta Gorda Metropolitan Planning Organization (MPO) Board consists of local elected officials from County, City and Airport Authority constituencies. This Board meets a minimum of five times per year to establish transportation policies and evaluate and review transportation needs within the MPO's Urbanized Area. The MPO Board operates under a set of formal bylaws.

Additionally, the MPO has three standing Advisory Committees, these are the Technical Advisory Committee (TAC), the Citizens' Advisory Committee (CAC), and the Bicycle/Pedestrian Advisory Committee (BPAC). The TAC and CAC meet five times per year, while the BPAC meets quarterly.

The MPO is the Official Planning Agency to receive Transportation Disadvantaged (TD) Trust Funds utilized for planning activities of the TD program in urbanized areas. The MPO staffs the Charlotte County Transportation Disadvantaged Local Coordinating Board (LCB) that meets quarterly and operates under a set of formal bylaws.

The Official Records are located at the:

- Meet and discuss MPO relevant legislative issues with members of State, Federal, and local officials and local organizational entities and associations
- Provide information and facts for the development of MPO Legislative positions
- Provide refreshments at meetings to maximize productivity for Joint Regional MPO Meetings
- Award The Peggy Walters Citizens Transportation Planning Award.
- Reimburse staff for Class C related travel that is not covered by State and Federal regulations

End Products:

- 2024 Legislative Position Statements prepared in December 2024
- 2025 Legislative Position Statements prepared in December 2025
- Attendance at state and local legislative sessions on MPO related issues, as needed
- Provide refreshments at meetings to maximize productivity for Joint Regional MPO Meetings
- Non-reimbursable expenses covered over the years by the County i.e., award plaques, meeting refreshments, operating expenses, other planning /transit activities, membership fees, Class C Meals, salaries and benefits

Appendix B - FY 2025-2026 State Planning Factors Emphasis Areas

Final Draft

Florida Planning Emphasis Areas

The Florida Department of Transportation (FDOT) Office of Policy Planning develops *Planning Emphasis Areas* on a two-year cycle in coordination with the development of metropolitan planning organizations' (MPOs) respective Unified Planning Work Programs (UPWPs). Emphasis areas set planning priorities, support the Florida Transportation Plan, and give importance to topic areas which MPOs are encouraged to address as they develop their planning programs.

Implementation of the seven (7) goals of the Florida Transportation Plan requires embracing innovation; extensive collaboration across jurisdictions, modes and disciplines; an emphasis on customer service; data and performance feedback; and strategic investments for the efficient and effective allocation of resources.

Florida MPOs should consider emphasizing the following four (4) planning topics when updating their UPWPs.

Safety

The Florida Transportation Plan and the State's Strategic Highway Safety Plan place top priority on safety, with a state target of zero traffic fatalities and serious injuries. In addition to adopting safety targets, the MPOs must show how their Long Range Transportation Plan (LRTP) and priority projects in their Transportation Improvement Program (TIP) support progress toward those targets. The UPWP should consider enhancements to data analyses and community involvement to better inform the identification and prioritization of safety projects.

Equity

Executive Order 14008, [Tackling the Climate Crisis at Home and Abroad](#), created the "Justice40 Initiative" that aims to deliver 40 percent of the overall benefits of relevant federal investments to disadvantaged communities. This initiative supports Executive Order 13985, [Advancing Racial Equity and Support for Underserved Communities Through the Federal Government](#), outlines federal policy and defines equity as the consistent and systematic fair, just, and impartial treatment of individuals. The Florida Transportation Plan seeks transportation choices that improve accessibility and equity by including a key strategy to enhance affordable transportation, service, and information access options for all ages and abilities and throughout underserved communities. The MPOs are key to identifying and implementing improvements based on data-driven project prioritization that considers not only impacts of transportation projects on a community, but also benefits of projects that can enhance opportunities for a community. The UPWP should address approaches to furthering transportation equity.

Resilience

With the passage of the FAST Act, resilience was introduced as a federal planning factor: "Improve the resilience and reliability of the transportation system and mitigate stormwater impacts of surface transportation." Resilience is defined as the ability to adapt to changing

conditions and prepare for, withstand, and recover from disruption. These conditions can encompass a wide variety of environmental, technological, economic, or social impacts.

MPOs can address resilience within their planning processes by leveraging tools such as the *FHWA Resilience and Transportation Planning Guide* and the *FDOT Quick Guide: Incorporating Resilience* in the MPO LRTP. It should be noted that while these documents focus primarily on the development of MPO LRTPs and TIPs, addressing resilience should be a consideration within every planning document prepared by an MPO. MPOs should place a particular emphasis on coordination with agency partners responsible for natural disaster risk reduction, or who may be developing local resilience planning initiatives. Additionally, MPOs should consider the additional costs associated with reducing vulnerability of the existing transportation infrastructure. Proactive resiliency planning will help the MPO develop planning documents that are ultimately more realistic and cost-effective.

Emerging Mobility

Advances in communication and automation technology result in new mobility options, ranging from automated and connected transport, electric vehicles, ridesharing, and micro-mobility, to flying cars and space travel. These changes may be disruptive and transformational, with impacts to safety, vehicle ownership, travel capacity, vehicle miles traveled, land-use, transportation design, future investment demands, supply chain logistics, economy, and the workforce. Implementation of all seven goals of the Florida Transportation Plan can be furthered through both the transformation of major corridors and hubs and the expansion of transportation infrastructure to embrace and support the adoption of emerging mobility.

The UPWP should recognize the important influence of emerging mobility on the multi-modal transportation system and include related planning studies, collaboration efforts, research, or other activities.

Federal Transit Administration

December 30, 2021

Attention: FHWA Division Administrators
FTA
Regional Administrators

Subject: 2021 Planning Emphasis Areas for use in the development of Metropolitan and
Statewide Planning and Research Work programs.

With continued focus on transportation planning the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) Offices of Planning are jointly issuing updated Planning Emphasis Areas (PEAs). The PEAs are areas that FHWA and FTA field offices should emphasize when meeting with the metropolitan planning organizations, State departments of transportation, Public Transportation Agencies, and Federal Land Management Agency counterparts to identify and develop tasks associated with the Unified Planning Work Program and the Statewide Planning and Research Program. We recognize the variability of work program development and update cycles, so we encourage field offices to incorporate these PEAs as programs are updated.

Please note that this letter is intended only to provide clarity regarding existing requirements. It is not binding and does not have the force and effect of law. All relevant statutes and regulations still apply.

Sincerely,

Nuria Fernandez

2021 Planning Emphasis Areas: **Tackling the Climate Crisis – Transition to a Clean, Energy Resilient Future**

Federal Highway Administration (FHWA) divisions and Federal Transit Administration (FTA) regional offices should work with State departments of transportation (State DOT), metropolitan planning organizations (MPO), and providers of public transportation to ensure that our transportation plans and infrastructure investments help achieve the national greenhouse gas reduction goals of 50-52 percent below 2005 levels by 2030, and net-zero emissions by 2050, and increase resilience to extreme weather events and other disasters resulting from the increasing effects of climate change. Field offices should encourage State DOTs and MPOs to use the transportation planning process to accelerate the transition toward electric and other alternative fueled vehicles, plan for a sustainable infrastructure system that works for all users and undertake actions to prepare for and adapt to the impacts of climate change. Appropriate Unified Planning Work Program work tasks could include identifying the barriers to and opportunities for deployment of fueling and charging infrastructure; evaluating opportunities to reduce greenhouse gas emissions by reducing single-occupancy vehicle trips and increasing access to public transportation, shift to lower emission modes of transportation; and identifying transportation system vulnerabilities to climate change impacts and evaluating potential solutions. We encourage you to visit FHWA's [Sustainable Transportation](#) or FTA's [Transit and Sustainability](#) Webpages for more information.

(See [EO 14008](#) on "Tackling the Climate Crisis at Home and Abroad," [EO 13990](#) on "Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis." [EO 14030](#) on "Climate-Related Financial Risk," See also [FHWA Order 5520](#) "Transportation System Preparedness and Resilience to Extreme Weather Events," FTA's "[Hazard Mitigation Cost Effectiveness Tool](#)," FTA's "[Emergency Relief Manual](#)," and "[TCRP Document 70: Improving the Resilience of Transit Systems Threatened by Natural Disasters](#)")

Equity and Justice in Transportation Planning

FHWA Division and FTA regional offices should work with State DOTs, MPOs, and providers of public transportation to advance racial equity and support for underserved and disadvantaged communities. This will help ensure public involvement in the planning process and that plans and strategies reflect various perspectives, concerns, and priorities from impacted areas. We encourage the use of strategies that: (1) improve infrastructure for non-motorized travel, public transportation access, and increased public transportation service in underserved communities; (2) plan for the safety of all road users, particularly those on arterials, through infrastructure improvements and advanced speed management; (3) reduce single-occupancy vehicle travel and associated air pollution in communities near high-volume corridors; (4) offer reduced public transportation fares as appropriate; (5) target demand-response service towards communities with higher concentrations of older adults and those with poor access to essential services; and (6) consider equitable and sustainable practices while developing transit-oriented development including affordable housing strategies and consideration of environmental justice populations.

[Executive Order 13985](#) (*Advancing Racial Equity and Support for Underserved Communities*) defines the term “equity” as the consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment, such as Black, Latino, and Indigenous and Native American persons, Asian

Americans and Pacific Islanders and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality. The term “underserved communities” refers to populations sharing a particular characteristic, as well as geographic communities, that have been systematically denied a full opportunity to participate in aspects of economic, social, and civic life, as exemplified by the list in the preceding definition of “equity.” In addition, [Executive Order 14008](#) and [M-21-28](#) provides a whole-of-government approach to advancing environmental justice by stating that 40 percent of Federal investments flow to disadvantaged communities. FHWA Division and FTA regional offices should work with State DOTs, MPOs, and providers of public transportation to review current and new metropolitan transportation plans to advance Federal investments to disadvantaged communities.

To accomplish both initiatives, our joint planning processes should support State and MPO goals for economic opportunity in disadvantaged communities that have been historically marginalized and overburdened by pollution and underinvestment in housing, transportation, water and wastewater infrastructure, recreation, and health care.

Complete Streets

FHWA Division and FTA regional offices should work with State DOTs, MPOs and providers of public transportation to review current policies, rules, and procedures to determine their impact on safety for all road users. This effort should work to include provisions for safety in future transportation infrastructure, particularly those outside automobiles.

A complete street is safe, and feels safe, for everyone using the street. FHWA and FTA seek to help Federal aid recipients plan, develop, and operate streets and networks that prioritize safety, comfort, and access to destinations for people who use the street network, including pedestrians, bicyclists, transit riders, micro-mobility users, freight delivery services, and motorists. The goal is to provide an equitable and safe transportation network for travelers of all ages and abilities, including those from marginalized communities facing historic disinvestment. This vision is not achieved through a one-size-fits-all solution – each complete street is unique and developed to best serve its community context and its primary role in the network.

Per the National Highway Traffic Safety Administration’s 2019 data, 62 percent of the motor vehicle crashes that resulted in pedestrian fatalities took place on arterials. Arterials tend to be designed for vehicle movement rather than mobility for non-motorized users and often lack convenient and safe crossing opportunities. They can function as barriers to a safe travel network for road users outside of vehicles.

To be considered complete, these roads should include safe pedestrian facilities, safe transit stops (if present), and safe crossing opportunities on an interval necessary for accessing destinations.

A safe and complete network for bicycles can also be achieved through a safe and comfortable bicycle facility located on the roadway, adjacent to the road, or on a nearby parallel corridor. Jurisdictions will be encouraged to prioritize safety improvements and speed management on arterials that are essential to creating complete travel networks for those without access to single-occupancy vehicles

Public Involvement

Early, effective, and continuous public involvement brings diverse viewpoints into the decision-making process. FHWA Division and FTA regional offices should encourage MPOs, State DOTs, and providers of public transportation to increase meaningful public involvement in transportation planning by integrating Virtual Public Involvement (VPI) tools into the overall public involvement approach while ensuring continued public participation by individuals without access to computers and mobile devices. The use of VPI broadens the reach of information to the public and makes participation more convenient and affordable to greater numbers of people. Virtual tools provide increased transparency and access to transportation planning activities and decision-making processes. Many virtual tools also provide information in visual and interactive formats that enhance public and stakeholder understanding of proposed plans, programs, and projects. Increasing participation earlier in the process can reduce project delays and lower staff time and costs. More information on VPI is available [here](#).

Strategic Highway Network (STRAHNET)/U.S. Department of Defense (DOD) Coordination

FHWA Division and FTA regional offices should encourage MPOs and State DOTs to coordinate with representatives from DOD in the transportation planning and project programming process on infrastructure and connectivity needs for STRAHNET routes and other public roads that connect to DOD facilities. According to the Declaration of Policy in 23 U.S.C. 101(b)(1), it is in the national interest to accelerate construction of the Federal-aid highway system, including the Dwight D. Eisenhower National System of Interstate and Defense Highways, because many of the highways (or portions of the highways) are inadequate to meet the needs of national and civil defense. The DOD's facilities include military bases, ports, and depots. The road networks that provide access and connections to these facilities are essential to national security. The [64,200-mile STRAHNET system](#) consists of public highways that provide access, continuity, and emergency transportation of personnel and equipment in times of peace and war. It includes the entire 48,482 miles of the Dwight D. Eisenhower National System of Interstate and Defense Highways and 14,000 miles of other non-Interstate public highways on the National Highway System. The STRAHNET also contains approximately 1,800 miles of connector routes linking more than 200 military installations and ports to the primary highway system. The DOD's facilities are also often major employers in a region, generating substantial volumes of commuter and freight traffic on the transportation network and around entry points to the military facilities. Stakeholders are encouraged to review the STRAHNET maps and recent Power Project Platform (PPP) [studies](#). These can be a useful resource in the State and MPO areas covered by these route analyses.

Federal Land Management Agency (FLMA) Coordination

FHWA Division and FTA regional offices should encourage MPOs and State DOTs to coordinate with FLMAs in the transportation planning and project programming process on infrastructure and connectivity needs related to access routes and other public roads and transportation services that connect to Federal lands. Through joint coordination, the State DOTs, MPOs, Tribal Governments, FLMAs, and local agencies should focus on integration of their transportation planning activities and develop cross-cutting State and MPO long range transportation plans, programs, and corridor studies, as well as the Office of Federal Lands.

Highway's developed transportation plans and programs. Agencies should explore opportunities to leverage transportation funding to support access and transportation needs of FLMAs before transportation projects are programmed in the Transportation Improvement Program (TIP) and Statewide Transportation Improvement Program (STIP). Each State must consider the concerns of FLMAs that have jurisdiction over land within the boundaries of the State (23 CFR 450.208(a)(3)). MPOs must appropriately involve FLMAs in the development of the metropolitan transportation plan and the TIP (23 CFR 450.316(d)). Additionally, the Tribal Transportation Program, Federal Lands Transportation Program, and the Federal Lands Access Program TIPs must be included in the STIP, directly or by reference, after FHWA approval in accordance with 23 U.S.C. 201(c) (23 CFR 450.218(e)).

Planning and Environment Linkages (PEL)

FHWA Division and FTA regional offices should encourage State DOTs, MPOs and Public Transportation Agencies to implement PEL as part of the transportation planning and environmental review processes. The use of PEL is a collaborative and integrated approach to transportation decision-making that considers environmental, community, and economic goals early in the transportation planning process, and uses the information, analysis, and products developed during planning to inform the environmental review process. PEL leads to interagency relationship building among planning, resource, and regulatory agencies in the early stages of planning to inform and improve project delivery timeframes, including minimizing duplication and creating one cohesive flow of information. This results in transportation programs and projects that serve the community's transportation needs more effectively while avoiding and minimizing the impacts on human and natural resources. More information on PEL is available [here](#).

Data in Transportation Planning

To address the emerging topic areas of data sharing, needs, and analytics, FHWA Division and FTA regional offices should encourage State DOTs, MPOs, and providers of public transportation to incorporate data sharing and consideration into the transportation planning process, because data assets have value across multiple programs. Data sharing principles and data management can be used for a variety of issues, such as freight, bike and pedestrian planning, equity analyses, managing curb space, performance management, travel time reliability, connected and autonomous vehicles, mobility services, and safety. Developing and advancing data sharing principles allows for efficient use of resources and improved policy and decision-making at the State, MPO, regional, and local levels for all parties.

LOBBYING CERTIFICATION for GRANTS, LOANS and COOPERATIVE AGREEMENTS

In accordance with Section 1352 of Title 31, United States Code, it is the policy of the CharlotteCounty-Punta Gorda MPO that:

- (1) No Federal or state appropriated funds have been paid or will be paid by or on behalf of the Charlotte County-Punta Gorda MPO, to any person for influencing or attempting to influence an officer or employee of any Federal or state agency, or a member of Congress or the state legislature in connection with the awarding of any Federal or state contract, the making of any Federal or state grant, the making of any Federal or state loan, extension, continuation, renewal, amendment, or modification of any Federal or state contract, grant, loan, or cooperative agreement.
- (2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any Federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- (3) The Charlotte County-Punta Gorda MPO shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subgrants and contracts and subcontracts under grants, subgrants, loans, and cooperative agreement), which exceeds \$100,000, and that all such subrecipients shall certify and disclose accordingly.
- (4) This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each failure.

DISADVANTAGED BUSINESS ENTERPRISE UTILIZATION

It is the policy of the Charlotte County-Punta Gorda MPO that disadvantaged businesses, as defined by 49 Code of Federal Regulations, Part 26, shall have an opportunity to participate in the performance of MPO contracts in a nondiscriminatory environment. The objectives of the Disadvantaged Business Enterprise Program are to ensure non-discrimination in the award and administration of contracts, ensure firms fully meet eligibility standards, help remove barriers to participation, create a level playing field, assist in development of a firm so it can compete successfully outside of the program, provide flexibility, and ensure narrow tailoring of the program.

The Charlotte County-Punta Gorda MPO, and its consultants shall take all necessary and reasonable steps to ensure that disadvantaged businesses have an opportunity to compete for and perform the contract work of the Charlotte County-Punta Gorda MPO, in a non-discriminatory environment.

The Charlotte County-Punta Gorda MPO shall require its consultants to not discriminate on the basis of race, color, national origin and sex in the award and performance of its contracts. This policy covers in part the applicable federal regulations and the applicable statutory references contained therein for the Disadvantaged Business Enterprise Program Plan, Chapters 337 and 339, Florida Statutes, and Rule Chapter 14-78, Florida Administrative Code

TITLE VI/ NONDISCRIMINATION ASSURANCE

Pursuant to Section 9 of US DOT Order 1050.2A, the Charlotte County-Punta Gorda MPO assures the Florida Department of Transportation (FDOT) that no person shall on the basis of race, color, national origin, sex, age, disability, family or religious status, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, the Florida Civil Rights Act of 1992 and other nondiscrimination authorities be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity.

The Charlotte County-Punta Gorda MPO further assures FDOT that it will undertake the following with respect to its programs and activities:

1. Designate a Title VI Liaison that has a responsible position within the organization and access to the Recipient's Chief Executive Officer.
2. Issue a policy statement signed by the Chief Executive Officer, which expresses its commitment to the nondiscrimination provisions of Title VI. The policy statement shall be circulated throughout the Recipient's organization and to the general public. Such information shall be published where appropriate in languages other than English.
3. Insert the clauses of *Appendices A and E* of this agreement in every contract subject to the Acts and the Regulations
4. Develop a complaint process and attempt to resolve complaints of discrimination against sub-recipients. Complaints against the Recipient shall immediately be forwarded to the FDOT District Title VI Coordinator.
5. Participate in training offered on Title VI and other nondiscrimination requirements.
6. If reviewed by FDOT or USDOT, take affirmative action to correct any deficiencies found within a reasonable time period, not to exceed ninety (90) calendar days.
7. Have a process to collect racial and ethnic data on persons impacted by your agency's programs.

THIS ASSURANCE is given in consideration of and for the purpose of obtaining any and all federal funds, grants, loans, contracts, properties, discounts or other federal financial assistance under all programs and activities and is binding. The person whose signature appears below is authorized to sign this assurance on behalf of the Recipient.

APPENDICES A and E

During the performance of this contract, the contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "Contractor") agrees as follows:

- (1) **Compliance with Regulations:** The Contractor shall comply with the Regulations relative to nondiscrimination in Federally assisted programs of the U.S. Department of Transportation (hereinafter, "USDOT") Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this Agreement.
- (2) **Nondiscrimination:** The Contractor, with regard to the work performed during the contract, shall not discriminate on the basis of race, color, national origin, sex, age, disability, religion or family status in the selection and retention of subcontractors, including procurements of materials and leases of equipment. The Contractor shall not participate either directly or indirectly in the discrimination prohibited by section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.
- (3) **Solicitations for Subcontractors, including Procurements of Materials and Equipment:** In all solicitations made by the Contractor, either by competitive bidding or negotiation for work to be performed under a subcontract, including procurements of materials or leases of equipment; each potential subcontractor or supplier shall be notified by the Contractor of the Contractor's obligations under this contract and the Regulations relative to nondiscrimination on the basis of race, color, national origin, sex, age, disability, religion or family status.
- (4) **Information and Reports:** The Contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the *Florida Department of Transportation, the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* to be pertinent to ascertain compliance with such Regulations, orders and instructions. Where any information required of a Contractor is in the exclusive possession of another who fails or refuses to furnish this information the Contractor shall so certify to the *Florida Department of Transportation, the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* as appropriate and shall set forth what efforts it has made to obtain the information.
- (5) **Sanctions for Noncompliance:** In the event of the Contractor's noncompliance with the nondiscrimination provisions of this contract, the *Florida Department of Transportation* shall impose such contract sanctions as it or the *Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration* may determine to be appropriate, including, but not limited to:
 - a. Withholding of payments to the Contractor under the contract until the Contractor complies, and/or
 - b. Cancellation, termination or suspension of the contract, in whole or in part.

UNIFIED PLANNING WORK PROGRAM (UPWP)
STATEMENTS AND ASSURANCES

- (6) **Incorporation of Provisions:** The Contractor shall include the provisions of paragraphs (1) through (7) in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The Contractor shall take such action with respect to any subcontract or procurement as the Florida Department of Transportation, the Federal Highway Administration, Federal Transit Administration, Federal Aviation Administration, and/or the Federal Motor Carrier Safety Administration may direct as a means of enforcing such provisions including sanctions for noncompliance. In the event a Contractor becomes involved in, or is threatened with, litigation with a sub-contractor or supplier as a result of such direction, the Contractor may request the Florida Department of Transportation to enter into such litigation to protect the interests of the Florida Department of Transportation, and, in addition, the Contractor may request the United States to enter into such litigation to protect the interests of the United States.
- (7) **Compliance with Nondiscrimination Statutes and Authorities:** Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin); and 49 CFR Part 21; The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects); Federal-Aid Highway Act of 1973, (23 U.S.C. § 324 et seq.), (prohibits discrimination on the basis of sex); Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 et seq.), as amended, (prohibits discrimination on the basis of disability); and 49 CFR Part 27; The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 et seq.), (prohibits discrimination on the basis of age); Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex); The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms “programs or activities” to include all of the programs or activities of the Federal-aid recipients, sub-recipients and contractors, whether such programs or activities are Federally funded or not); Titles II and III of the Americans with Disabilities Act, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 -- 12189) as implemented by Department of Transportation regulations at 49 C.F.R. parts 37 and 38; The Federal Aviation Administration’s Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex); Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations; Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100); Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq)

Good afternoon D’Juan:

Thanks for the timely submittal of the Charlotte County-Punta Gorda MPO 24/25 - 25/26 UPWP.

Here are a few notes:

- Please include a statement indicating that the Charlotte County-Punta Gorda MPO uses at least 2.5% of its PL funds on specific activities to increase safe and accessible travel options for all persons. See attached PDF. Note: There’s no prescribed way to present this. Collier MPO is a good example (See attached 2.5% Example).
- Noteworthy: The financial information in the *Funding Source Table* (pg. 55) is easy to read and complements the narrative in each task.
- Noteworthy: The Charlotte Punta Gorda MPO includes SS4A in Task 6 of the UPWP. Presenting this augments the extensive Bike/Ped activities, much of it through the Bicycle/Pedestrian Advisory Committee.
- Thank you for including deobligated funds in the *Funding Source Table*. This provides transparency about previous PL funds UPWP. Please include a similar note in the Task 4 budget table (pg. 35).

Thanks again for your work on the UPWP and the timely submittal. Please contact me for any questions.
